

*Take Action: Help save Alberta caribou from extinction*

Dear Wilderness Defender,

Alberta's caribou are in real trouble. Please let the Premier know you care and want actions so caribou can survive and recover.

Alberta's recent [draft range plan](#) to recover caribou is actually placing them at greater risk by allowing ongoing destruction of the old forests they need to survive.

### Take Action

Please write Premier Notley ([premier@gov.ab.ca](mailto:premier@gov.ab.ca)) and caribou range planners ([AEPCaribouPlanning@gov.ab.ca](mailto:AEPCaribouPlanning@gov.ab.ca)).  
Let them know that caribou need protected habitat now!

You can use [this easy letter template](#).  
You can also submit your comments [online](#).

Please say why caribou matter to you, and consider asking for rules to

---

reduce human activity in caribou ranges.

Science shows caribou need at least 65% undisturbed habitat and we need protected areas for each population.

You can read AWA's full letter to the Alberta government [here](#).

As always, I appreciate you sending me a copy of your letter at [ccampbell@abwild.ca](mailto:ccampbell@abwild.ca)

Thank you,  
Carolyn Campbell, AWA Conservation Specialist

Dedicated to the conservation of wilderness and completion of a protected areas network, AWA inspires communities to care for Alberta's wild spaces through awareness and action.
